ImaarishaSRHR

PHASE 2 · FACILITATOR & TRAINING-OF-TRAINERS MANUAL

How to use The Field Guide

Running the Strategic Comms & Reframing toolkit — in a workshop, a community session, or a training of trainers.

Community Media Trust (CoMeT) · imaarishasrhr.org · #ImaarishaSRHR

START HERE

What the Field Guide is

One toolkit, built around the Achieng family, delivered as a living resource — not a document you read once and shelve.

EIGHT MODULES

Seven strategy modules — the system, disinformation, culture & patriarchy, reframing, what works, the operating system, and the Mother & Aunty frontier.
Plus a full Mother & Aunty facilitator curriculum. Each module ends in one working tool.

TWO TRACKS, ONE SOURCE

A digital app — installable, works offline, on phone or desktop — for interactive use.
Printed one-page job-aids with QR codes that bridge paper back to the tools and audio — so it works in a clinic with no data as well as on a phone.

You don't need to master the evidence — run the scenes and the tools, and let the family carry the argument.

THE AUDIENCES

Who facilitates, and who it is for

SRHR organisations & staff	The strategy modules as team training: the evidence, the framework, and a tool each person runs in a real campaign.
Mobilisers, CHPs, peer educators	The scenes and tools for group sessions; the Mother & Aunty curriculum for working with older women.
Champion aunties & faith allies	The Mother & Aunty field cards — a script they can carry into the kitchen and the WhatsApp group.
Master trainers (this manual's reader)	How to cascade all of the above to new facilitators through a training of trainers.

THE FACILITATOR'S STANCE

Five principles that hold the room

1

Never shame the messenger

Beth, Silas and Tom act from love. The arc is conversion, not blame.

2

Teach through people

Open on the scene before the framework. Let the room meet the person first.

3

Lead with a held value

Health, family, provision — arrive at rights from there.

4

Replace, don't just remove

Every retired line needs a new one to carry in its place.

5

Make it safe to be uncertain

The tools are to think with, not to test people.

THE METHOD

The session rhythm — every module, five beats

1	2	3	4	5
Arrive on the scene	**Surface the idea**	**Run the tool**	**Practise**	**Commit**
Read it aloud; “who recognises this?”	Draw it out, then show 2–3 figures.	Do it together, live.	Apply it to their own case.	Each names one change; capture it.
5 min	10 min	15 min	15 min	5 min

Learn this rhythm once and you can facilitate any module — and teach others to.

THE CASCADE

Training of trainers — three tiers

1	**Master trainer**	Runs the ToT (you).	Certify facilitators; adapt sessions; hold quality.
2	**Facilitator**	Org staff, mobilisers, peers.	Run any module with a group; recruit champion aunties.
3	**Champion / peer**	Aunties, creators, faith allies, survivors.	Carry re-scripted messages through their own trusted channels.

THE AGENDA

A two-day ToT

Day 1 · AM

Meet the family; the two-track guide; the five principles; the session rhythm.

Day 1 · PM

Modules 1–3 run in full, trainer-led; participants take notes as facilitators.

Day 2 · AM

Modules 4–6 and the Mother & Aunty frontier; participants co-facilitate in pairs.

Day 2 · PM

The M&A curriculum; each runs one module solo (micro-teach); feedback & certification.

THE MICRO-TEACH — THE HEART OF THE ToT

Each participant runs one module for 20 minutes. Certify them when they can open on a scene, run the tool, and close on a commitment — without shaming anyone.

AT THE FLIP-CHART

Facilitation notes, module by module

1 The System

TOOL **Map the Machine**

Open on: *Agneta pressed from four sides at once.*

The point: It's one machine — pull one gear, the rest still turn.

Without devices: Flip chart: Agneta centre, four forces around her.

Pitfall: Don't split it into four separate problems.

2 Disinformation

TOOL **Spot the tell-tale signs**

Open on: *"Family planning causes cancer — share before it's deleted."*

The point: You can't fact-check your way out — prebunk the signals.

Without devices: Four cards: source, authority, fear, urgency — match the words.

Pitfall: Don't debate the myth; name the trick.

Module notes

3 Culture & Patriarchy

TOOL **Cost her decision**

Open on: *Tom finds Grace's hidden pills.*

The point: Lower the cost of her decision, don't shame the man.

Without devices: Add supports on cards: "easier for her to choose now?"

Pitfall: Don't make the men the enemy.

4 Reframing

TOOL **The Reframing Worksheet**

Open on: *Same facts, rebuilt for Tom and for Beth.*

The point: The frame beats the fact; health is the entry, rights the destination.

Without devices: Five boxes on paper: Value · Bridge · Fact · Messenger · Ask.

Pitfall: Don't skip the messenger.

Module notes

5 What Works

TOOL **Channel & messenger matrix**

Open on: *The nurse's desk, Kevo's clip, the pastor, Brenda's story.*

The point: Match channel and messenger to the audience, honestly.

Without devices: Print the grid; place real audiences and argue pairings.

Pitfall: Don't default to "make a video."

6 The Operating System

TOOL **The Five Habits**

Open on: *The guide only works if it becomes routine.*

The point: Five weekly habits, each with an owner.

Without devices: Wall poster: mark the baseline, pick the next habit.

Pitfall: Don't leave it abstract — assign owners.

Module notes

7 Mother & Aunty · frontier

TOOL **Rewrite the warning**

Open on: *Agneta confides; Beth answers "marry by 20."*

The point: Highest-leverage channel carries the most misinformation.

Without devices: Two columns: "what Beth says" / "what Beth could say."

Pitfall: Don't caricature the aunty.

8 Mother & Aunty · curriculum

TOOL **Gatekeeper → champion**

Open on: *From certain gatekeeper to family champion.*

The point: Recruit and move champions along the pathway.

Without devices: Champion Aunty + Myth & Fact cards; five weekly sessions.

Pitfall: Don't rush the pathway.

THE HIGHEST-LEVERAGE ROOM

The gatekeeper → champion pathway

0 — Gatekeeper

Passes the warnings on as settled truth.

→

1 — Unsettle

One crack: “my niece’s nurse said different.”

→

2 — Try

Tests one new line; sees a girl respected, not shamed.

→

3 — Champion

Changes her advice; walks a girl to the clinic.

You are not delivering facts to older women — you are recruiting champions who carry re-scripted messages through channels no campaign can reach.

THE CURRICULUM

The Mother & Aunty five sessions

1	**Our role, and our love**	Honour the participants' role; surface — without judging — the advice they give.
2	**What we were told, and what is true**	With a clinician: separate the love (right) from the facts (wrong), without shame.
3	**Keep the love, change the facts**	Rewrite your own warnings into new scripts that still sound like a caring aunty.
4	**Carrying it — kitchen and phone**	Practise the new scripts face-to-face and in the family WhatsApp group.
5	**Becoming a champion**	From private change to public championing; the pledge and ongoing support.

IN THE FIELD

Offline by design — and knowing it works

THE TWO TRACKS TOGETHER

Install once over wifi — it then runs fully offline in the field.

Print the job-aids — each module folds to one page; M&A to the Champion Aunty and Myth & Fact cards.

Let the QR bridge — a scan on paper opens that exact module or its audio when data returns.

SIGNS IT IS WORKING

- **Script adoption —** a re-scripted line repeated back, unprompted.
- **Content shift —** messages start leading with value, not “rights.”
- **Service-seeking —** a champion walks a girl to the clinic.
- **Prebunking reflex —** someone names the trick before debating the claim.

QUICK REFERENCE

Do and don’t

✓ DO

- Open on a person and a scene.
- Lead with a value the room holds.
- Hand over a new line for the old one.
- Run the tool, then let them practise.
- Treat the family as future allies.
- Close on a concrete commitment.

✕ DON’T

- Open on a definition or statistic.
- Lead with “rights,” or with blame.
- Leave a belief demolished, empty.
- Demonstrate and move on.
- Make anyone the villain.
- End on “any questions?”

APPENDIX

A one-day introductory workshop

09:00	Meet the Achieng family; the two-track guide; the five principles.
10:00	Module 1 (The System) and Module 2 (Disinformation), in full.
11:30	Module 4 (Reframing) — the worksheet on the team's real messages.
13:30	Modules 7 & 8 (Mother & Aunty) — the frontier and the pathway.
15:00	Module 6 (Operating System) — assign the five habits to owners.
16:00	Commitments: each names one change; set the next check-in.

REMEMBER

You are the first trusted messenger the room meets.

The way you hold the family — with respect, patience and belief in their conversion — is the method. Facilitate the guide the way it asks Beth to be treated, and the room will carry it exactly that way to the next.

Respectfully. Relentlessly. Together.
